PROFESSIONAL SUMMARY

Full Stack Developer with 8 months of professional experience building React.js applications, now working across the full stack with Node.js, Express.js, Next.js, Prisma, PostgreSQL, and MongoDB. Skilled in JavaScript, TypeScript, Redux, and REST API development, with a working knowledge of Java and Python.

EXPERIENCE

Frontend Developer (React)

Dec 2025 — Present

The TFPL — Ahmedabad, India

- Developed and maintained responsive web applications using React.js, JavaScript (ES6+), HTML5, and CSS3, building reusable UI components for a consistent, maintainable user experience.
- Integrated REST APIs and managed application state with Redux, handling asynchronous data fetching and error management for predictable, efficient data flow.
- Wrote reusable utility functions and optimized component architecture and rendering performance, reducing code duplication and improving app efficiency.
- Collaborated with cross-functional teams to ship new features, fix bugs, and enhance user experience, following Git-based version control and peer code reviews.

PROJECTS

TakshaHub | Next.js, TypeScript, Node.js, Express.js, Prisma

Live Demo | GitHub

- Developed and deployed a full-stack school management platform with role-based dashboards for admins, teachers, and students.
- Implemented JWT authentication and role-based access control across multiple user roles.
- Built a scalable backend architecture using Express.js, Prisma, PostgreSQL, and Redis.
- Deployed the frontend on Vercel and backend on Render, delivering a production-ready full-stack application.

Expense Tracker | React, Node.js, Express.js, MongoDB

Live Demo | GitHub

- Developed and deployed a full-stack expense tracker with JWT authentication and Cloudinary integration for receipt uploads.
- Built income and expense management features using Mongoose with interactive financial dashboards.
- Implemented Excel export functionality using ExcelJS for reporting and data analysis.
- Deployed the frontend on Vercel and backend on Render, delivering a production-ready full-stack application.

SKILLS

Languages: JavaScript, TypeScript, Java (basic), Python (basic)

Frontend: React.js, Next.js, HTML5, CSS3, Redux, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: PostgreSQL, MongoDB, Prisma ORM

Tools: Git, GitHub, Postman, Cloudinary, VS Code

EDUCATION

Masai School — Bengaluru, Karnataka, *Full Stack Web Development*

June 2024 — May 2025

Dr. Babasaheb Ambedkar Marathwada University — Aurangabad, Maharashtra, *Bachelor of Science* June 2020 — Nov 2024
